Comments on Draft B of Advisor Opinion 2012-20.

It seems to me that Markwayne Mullin is using his plumbing business advertising as an unfair advantage in the Oklahoma District 2 Congressional campaign. In his campaign literature and television ads the plumbing company trucks are prominently displayed, so much so, that they could be mistaken for an advertisement for his plumbing company. The way his ads are intertwined, it is hard to distinguish one from the other.

Also, since the fall of 2011, it seems that his plumbing company advertising has increased in frequency. One of the radio station ads that seems to have increased in frequency is aired on AM 1520 out of Oklahoma City, but is heard in many Dist. 2 areas.

I believe this gives the other candidates in this Congressional race an unfair disadvantage. I would like you to consider the above, inappropriate (illegal?) influence before making your final decision.
